

Foam Magnetic Fraction Circles

These colorful, soft foam magnetic fraction circles make it simple and fun to teach students about fractions and their relationships. Color-coded pieces let children see, feel, and compare equivalent fractions. Use the large 9" fraction circles on any magnetic surface. Perfect for whole group instruction and learning center activities!

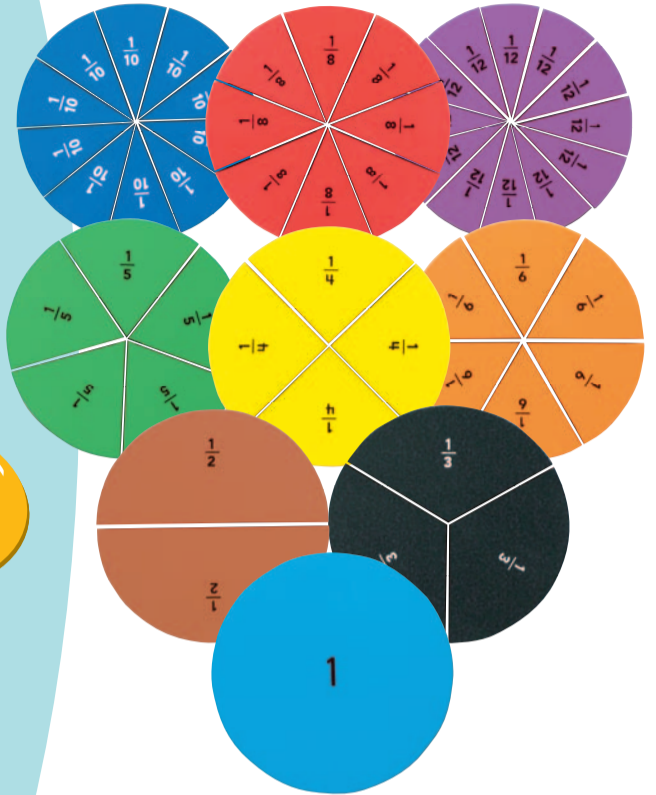

(Magnetic board not included)

The fun way to teach comparative fractions!

Also includes 36 color-coded foam magnetic squares that show fractions as a decimal and a percent.

$\frac{1}{4}$ = 25% = .25

See the parts and the whole!
